The Law Clinic worked very closely with this office in assisting them to draft affidavit on behalf of client in their application for Domestic Violence Protection Orders. This partnership has had a very positive feedback from the clients and the Magistrate's Court Clerks benefited as well. This relationship has even assisted clients in situations where the members of the SAPS would be inefficient in dealing with the Domestic Violence matters; the intervention of the Law Clinic had given added value to the Magistrate's Court assistance of the victims of the domestic violence.
